

SPIRAL WOUND GASKET WITH INNER AND OUTER RING (PTFE)

6713SD10

This gasket system also has an inner as well as outer support ring in addition to the wound spiral. This stabilises the spiral mechanically. Recommended for flanges with flat or raised face.

Operational Data

Temperature [min]	-200 °C
Temperature [max]	250 °C
Pressure [max]	320 bar

Dichtungskennwerte DIN 2505 V

$K_0 \times K_d$ [N/mm]	$45 \times b_d$
k_1 [mm]	$1,2 \times b_d$

Dichtungskennwerte ASME

m	3
Y [PSI]	6600
